MILWAUKEE 53206 introduces viewers to a community with the highest rate of incarcerated African American men in the U.S. Caught in a web of imperfect laws, poverty and unemployment, *MILWAUKEE 53206* renders a portrait of citizens often dehumanized in the media and illuminates, beyond headlines, the decimating toll and trauma families of color face as a result of the mass incarceration of African American men.

BEYOND THE WALL

Premieres April 10, 2018 on *America Reframed*

Film Website:

Broadcast Website:

<http://worldchannel.org/programs/episode/arf-s6-607-beyond-wall/>

Beyond the Wall revolves around one central figure, a former prisoner named Louie Diaz, as he works to guide five formerly incarcerated men safely through the minefield of life outside of jail. As we follow the men's efforts to rebuild their lives beyond prison walls, we witness their profound struggle to stay sober and maintain a crime-free life. Compelling and intimate, the film captures how terrifying life can be outside prison walls. Filmed on the streets of Lowell and Lawrence, Massachusetts, which once boasted textile mills and a thriving local economy, these cities now face decay along with looming poverty, crime and drug addiction.

The CORRIDOR A documentary film

Premieres April 17, 2018 on *America Reframed*

Film Website:

<http://www.thecorridordocumentary.com>

Broadcast Website:

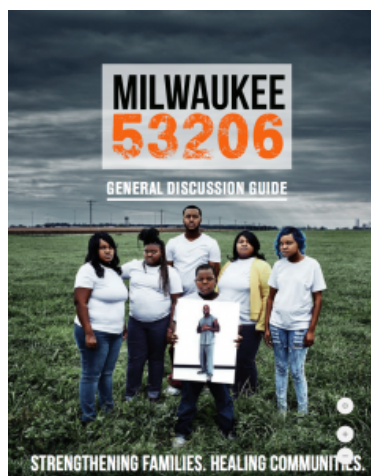

<http://worldchannel.org/programs/episode/arf-s6-608-corridor/>

The Corridor shows the inner-workings and challenges of San Francisco's Five Keys Charter School – the first high school of its kind in the United States that provides incarcerated adults the opportunity to earn a high school diploma to prepare them for successful reintegration into their communities. Designed upon the premise that the key to reintegration is education, Five Keys Charter School strives to create alternatives to the revolving door of incarceration. *The Corridor* invites viewers to ask: is education the first step along the pathway to restorative justice?

ABOUT: #WORLDxReEntry

As incarceration and recidivism rates soar for communities of color in the United States, WORLD Channel presents films on issues related to prisons and jails, citizens' re-entry, and persistent systemic challenges around drug addiction and incarceration. This timely group of criminal justice-themed documentaries strives to educate and engage audiences around the state of criminal justice today and the possibilities of restorative justice.

Three featured films to be showcased on the award-winning series [America ReFramed](#) - *MILWAUKEE 53206*, *Beyond the Wall* and *The Corridor* - provide a rare "insider's view" of those dealing first hand with the contradictions of the U.S. criminal justice system and the aftermath of incarceration for individuals and families who wrestle with socio-economic barriers to reform and re-entry. Perhaps most importantly, the films introduce to viewers people and places across the country, whose diverse views and experiences they might otherwise not encounter.

WORLD will also host a series of free online events to provide opportunities for audiences to engage with the stories beyond broadcast, including a [Facebook](#) Live of the America ReFramed films with appearances from the filmmakers on April 2nd. Join the conversation all April long using the hashtag #WORLDxReEntry.
